

PRIVATE CAPITAL MANAGEMENT VALUE FUND

A Series of FundVantage Trust

Summary Prospectus – September 1, 2020

Class/Ticker: Class I Shares (VFPIX)

Click here to view the Fund's [Statutory Prospectus](#) or [Statement of Additional Information](#).

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund including the Fund's Statement of Additional Information ("SAI") and shareholder reports online at <https://www.private-cap.com/prospectus-and-documents/>. You can also get this information at no cost by calling (888) 568-1267, by sending an email request to prospectus@private-cap.com, or from any financial intermediary that offers shares of the Fund. The Fund's prospectus, dated September 1, 2020 and SAI, dated September 1, 2020, as amended from time to time, are incorporated by reference into this Summary Prospectus.

IMPORTANT NOTE: Beginning on January 1, 2021, paper copies of the Private Capital Management Value Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the shareholder reports from the Private Capital Management Value Fund or from your financial intermediary. Instead, annual and semi-annual shareholder reports will be available on the Private Capital Management Value Fund's website (www.private-cap.com), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

You may elect to receive all future annual and semi-annual shareholder reports in paper, free of charge. To elect to receive paper copies of shareholder reports through the mail or otherwise change your delivery method, contact your financial intermediary or, if you hold your shares directly through the Private Capital Management Value Fund, call the Private Capital Management Value Fund toll-free at (888) 568-1267 or write to the Private Capital Management Value Fund at Private Capital Management Value Fund, FundVantage Trust, c/o BNY Mellon Investment Servicing, P.O. Box 9829, Providence, RI 02940-8029.

Investment Objective

The Private Capital Management Value Fund (the "Fund") seeks to achieve long-term capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. More information about these and other discounts is available from your financial professional and in the section entitled "Purchase of Shares" on page 13 of the Fund's Prospectus.

Shareholder Fees (fees paid directly from your investment):

	Class C	Class I	Class R
Maximum Deferred Sales Charge (Load) (as a percentage of the lower of the original purchase price or the net asset value at redemption)	1.00% ¹	None	None
Redemption Fee (as a percentage of amount redeemed within 30 days of purchase)	2.00%	2.00%	2.00%

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

Management Fees	0.90%	0.90%	0.90%
Distribution and/or Service (Rule 12b-1) Fees	1.00%	None	0.50%
Other Expenses	0.93%	0.93%	0.93%
Total Annual Fund Operating Expenses²	2.83%	1.83%	2.33%
Fee Waiver and/or Expense Reimbursement	(0.63)%	(0.63)%	(0.63)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement²	2.20%	1.20%	1.70%

¹ A 1.00% contingent deferred sales charge ("CDSC") will be assessed when Class C shares are redeemed within 12 months after initial purchase; however, the CDSC shall not apply to the purchases of Class C shares where the selling broker dealer was not paid a commission at the time of initial purchase.

² Private Capital Management, LLC (“Private Capital” or the “Adviser”) has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund’s total operating expenses, excluding taxes, fees and expenses attributable to a distribution or service plan adopted by the Trust, “Acquired Fund Fees and Expenses,” interest, extraordinary items and brokerage commissions do not exceed 1.20% (on an annual basis) of the Fund’s average daily net assets (the “Expense Limitation”). Prior to September 1, 2019 the Expense Limitation was 1.10%. The Expense Limitation will remain in place until August 31, 2021, unless the Board of Trustees of FundVantage Trust (the “Trust”) approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund’s expenses are below the Expense Limitation amount.

Expense Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund’s Class C shares, Class I shares and Class R shares for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (reflecting any contractual fee waivers). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class C	\$223	\$818	\$1,438	\$3,112
Class I	\$122	\$514	\$932	\$2,096
Class R	\$173	\$667	\$1,188	\$2,618

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 20% of the average value of its portfolio.

Summary of Principal Investment Strategies

The Fund, under normal circumstances, primarily invests in common stocks of companies listed on stock exchanges in North America. While the Fund focuses its investments in smaller capitalization companies, there are no set limits on the market capitalizations of the companies in which the Fund may invest.

The Adviser applies a fundamental value, research driven investment approach. The Adviser seeks to identify businesses that it believes are significantly mispriced by the public market. The Adviser values companies using a variety of measures, including an estimate of a company’s capacity to generate discretionary cash flow (cash flow from operations after required capital expenditures) over time and the long-term value of its assets. The Adviser seeks to identify companies that are out of favor, underappreciated or misunderstood, and thereby trade at a significant discount to the Adviser’s estimation of long-term intrinsic value.

The Adviser looks for companies that it believes have entrenched market positions or sustainable competitive advantages; competent management whose interests are aligned with creating long-term shareholder value; corporate cultures that are consistent with good governance and appropriately responsive to shareholders — the company’s ultimate owners; and the ability to compete effectively and succeed under various industry and broader economic scenarios. Consistent with its primary objective of achieving long-term capital appreciation, the Adviser generally expects to hold its investment in a company for a period of 3 to 5 years.

The Adviser continually re-evaluates companies in which it has invested and will scale back or exit a position as a company's market price approaches the Adviser's price target or when a change in a fundamental aspect of the company or its operating environment materially affects the Adviser's investment view. The Adviser will often continue to hold, or add to, positions with declining share prices so long as the factors driving the price decline do not result in a negative revision to the Adviser's overall investment assessment of the company.

The Fund is a diversified fund, but nevertheless has invested a significant portion of its assets in the securities of a small number of issuers, which may cause the Fund's value to fluctuate more widely than some other diversified funds. As a result of the Fund's investment approach and the relative price movements of certain Fund holdings, as of August 1, 2020 the Fund's holdings profile reflected a portfolio concentration level normally associated with a non-diversified fund.

Summary of Principal Risks

The Fund is subject to the principal risks summarized below. These risks could adversely affect the Fund's net asset value ("NAV"), yield and total return. It is possible to lose money by investing in the Fund.

- **Common Stock Risk:** Because the Fund normally invests a substantial portion of its assets in common stocks, the value of the Fund's portfolio will be affected by changes in stock markets. Common stock represents an equity (ownership) interest in a company or other entity. At times, the stock markets can be volatile, and stock prices can change drastically. This market risk will affect the Fund's net asset value, which will fluctuate as the values of the Fund's portfolio securities and other assets change. Not all stock prices change uniformly or at the same time, and not all stock markets move in the same direction at the same time. In addition, other factors can adversely affect a particular stock's price (for example, poor management decisions, poor earnings reports by an issuer, loss of major customers, competition, major litigation against an issuer, or changes in government regulations affecting an industry). Not all of these factors nor their effects can be predicted.
- **Currency Translation Risk:** A significant number of companies in which the Fund invests rely on markets outside the United States for a portion of their operating revenues. These revenues are frequently denominated in currencies other than the U.S. dollar. As a result, these companies face a risk that revenues can be affected by changes in the exchange rate between the local currencies in which revenues are denominated and the U.S. dollar. A relative decline in the value of the U.S. dollar would have the effect of increasing the dollar amount of revenues generated in local currencies, while a relative strengthening of the U.S. dollar would have the opposite effect. While the Adviser evaluates potential currency translation effects along with other factors in making investment decisions, the Adviser does not take steps to hedge potential currency translation risks.
- **Focused Portfolio Risk:** The Adviser seeks to invest Fund assets in the equity securities (stock) of companies that the Adviser believes are currently being undervalued by the market. As a result, individual securities held by the Fund may appreciate significantly over time and may grow to comprise in excess of 5% of the Fund's invested assets. Collectively, such positions may comprise materially in excess of 25% of the Fund's overall portfolio. The Adviser is likely to continue to hold such positions so long as they meet the Adviser's investment criteria. As a result, from time-to-time the Fund's portfolio may reflect a concentration profile more typically associated with a non-diversified fund. This may cause the Fund's value to fluctuate more widely than some other diversified funds.
- **Foreign Securities Risk:** The risk that investing in foreign (non-U.S.) securities, including Canadian securities, may result in the Fund experiencing more rapid and extreme changes in value than a fund that invests exclusively in securities of U.S. companies, due to less liquid markets, and adverse economic, political, diplomatic, financial, and regulatory factors. Foreign governments also may impose limits on investment and repatriation and impose taxes. Any of these events could cause the value of the Fund's investments to decline.
- **Management Risk:** As with any managed fund, the Adviser may not be successful in selecting the best-performing securities or investment techniques, and the Fund's performance may lag behind that of similar funds. In particular, the Fund faces the risk of loss as a result of mis-estimation or other errors by the Adviser in its fundamental analysis regarding the companies in which the Fund invests. The Adviser may also miss out on an investment opportunity because the assets necessary to take advantage of the opportunity are tied up in less advantageous investments.
- **Market Disruption Risk:** Markets may be impacted by negative external and/or direct and indirect economic factors such as pandemics, natural disasters, global trade policies and political unrest or uncertainties. The adverse impact of any one or more of these events on market value of fund investments could be significant and cause losses.

- **Sector Risk:** The Fund may focus its investments from time to time in a limited number of economic sectors. The Fund is unlikely to have exposure to all economic sectors. To the extent that it focuses in a limited number of economic sectors, developments affecting companies in those sectors will likely have a magnified effect on the Fund's NAV and total returns and may subject the Fund to greater risk of loss. Accordingly, the Fund could be considerably more volatile than a broad-based market index or other mutual funds that are diversified across a greater number of securities and sectors.
- **Small- and Mid-Capitalization Company Risk:** The risk that securities of small or mid-capitalization companies may be subject to more abrupt or erratic market movements than securities of larger, more established companies. Generally the smaller the company size, the greater the risk. Small and mid-capitalization companies may have limited product lines or financial resources, or may be dependent upon a small or inexperienced management group and their securities may trade less frequently and in lower volume than the securities of larger companies, which could lead to higher transaction costs.
- **Value Investing Risk:** A value-oriented investment approach is subject to the risk that a security believed to be undervalued does not appreciate in value as anticipated or experiences a decline in value. The returns on "value" equity securities may be less than returns on other styles of investing or the overall stock market.

Performance Information

The bar chart and table shown below provide some indication of the risks of investing in the Fund by showing:

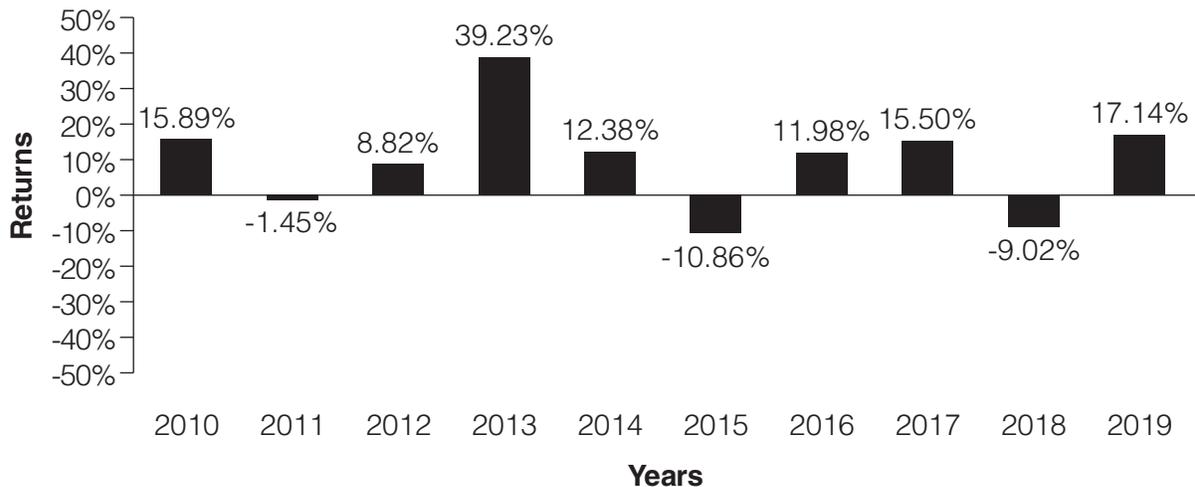

- changes in the Fund's performance from year-to-year; and
- how the Fund's average annual returns for one year, five year, ten year and since inception periods compared with those of a broad measure of market performance.

The Fund's past performance (both before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.private-cap.com or by calling the Fund toll-free at (888) 568-1267.

From inception through August 31, 2020, the fund was benchmarked against the S&P 500 Index® and the Fund may compare its performance to that benchmark in the future.

The annual returns in the bar chart are for the Fund's Class I shares and do not reflect sales loads. If sales loads were reflected, returns would be lower than those shown. In addition, total returns would have been lower had certain fees and expenses not been waived or reimbursed.

Annual Total Returns For Past Ten Calendar Years — Class I¹

Calendar Year-to-Date Total Return as of June 30, 2020: (26.21)%

During the periods shown in the bar chart, the Fund's best quarter was up 15.33% (1st Quarter of 2013) and the Fund's worst quarter was down 19.07% (3rd Quarter of 2011).

Average Annual Total Returns For Periods Ended December 31, 2019

Private Capital Management Value Fund Class I Shares¹	1 Year	5 Years	10 Years	Since Inception (January 1, 1987)
Return Before Taxes	17.14%	4.19%	9.09%	13.63%
Return After Taxes on Distributions	12.22%	1.97%	7.55%	13.14%
Return After Taxes on Distributions and Sale of Shares	13.45% ²	3.01% ²	7.24%	12.62%
Russell 2000 [®] Index ³ (reflects no deductions for fees, expenses or taxes)	25.53%	8.23%	11.83%	9.53%

¹ Performance shown for the period from January 1, 1987 to May 28, 2010 is the performance of a corporate defined contribution plan account (the “Predecessor Account”), which transferred its assets to the Fund in connection with the Fund’s commencement of operations on May 28, 2010 and does not reflect any taxes that you may pay as a result of any distributions or sale of shares of the Fund. The Predecessor Account’s performance has been adjusted to reflect the monthly deduction of the Fund’s Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement applicable to Class I shares of the Fund effective at the Fund’s commencement of operations on May 28, 2010. The Class C shares and the Class R shares have not been issued.

² The “Return After Taxes on Distributions and Sale of Shares” is higher than the “Return After Taxes on Distributions” because of realized losses that would have been sustained upon the sale of Fund shares immediately after the relevant periods.

³ The Russell 2000[®] Index is an unmanaged index measuring the performance of the 2,000 smallest companies in the Russell 3000[®] Index, which represents approximately 8% of the total market capitalization of the Russell 3000[®] Index. The Russell 3000[®] Index measures the performance of the 3,000 largest U.S. companies based on market capitalization, which represents approximately 98% of the investable U.S. equity market.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for Class I shares; after-tax returns for Class C and Class R shares will vary. The Class C shares and the Class R shares would have had substantially similar annual returns because the shares are invested in the same portfolio. Annual returns would differ only to the extent that the Classes have different expenses. The Predecessor Account was not registered as a mutual fund under the Investment Company Act of 1940, as amended (“1940 Act”), and therefore was not subject to certain investment restrictions, limitations and diversification requirements imposed by the 1940 Act and Internal Revenue Code of 1986, as amended. If the Predecessor Account had been registered under the 1940 Act its performance may have been different.

Management of the Fund

Investment Adviser

Private Capital Management, LLC serves as the Fund’s investment adviser.

Portfolio Manager

- **Gregg J. Powers** is the CEO and Chairman of Private Capital Management, LLC and has been managing the Fund since 2010 and the Predecessor Account since 1994. Mr. Powers is the Fund’s Portfolio Manager.

Purchase and Sale of Fund Shares

Minimum Investment Requirements

Account Type	Minimum	Class C	Class I	Class R
Regular Accounts	Initial Investment	\$5,000	\$5,000	No Minimum
	Additional Investments	\$50	No Minimum	No Minimum
Individual Retirement Accounts	Initial Investment	\$2,000	\$5,000	No Minimum
	Additional Investments	\$50	No Minimum	No Minimum
Automatic Investment Plan	Initial Investment	\$2,000	N/A	N/A
	Additional Investments	\$50	N/A	N/A

The Fund reserves the right to waive the minimum initial investment requirement for any investor. You can only purchase and redeem shares of the Fund on days the New York Stock Exchange (the “Exchange”) is open. Shares may be redeemed through the means described below.

Redemption by Mail:

 FundVantage Trust
 c/o BNY Mellon Investment Servicing
 4400 Computer Drive
 Westborough, MA 01581-1722
 (888) 568-1267

Redemption by Telephone:

Call Fund shareholder services (“Shareholder Services”) toll-free at (888) 568-1267.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains. Such distributions are not currently taxable when shares are held through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from any tax-deferred account in which the shares are held may be subject to federal income tax.

Payments to Broker-Dealers or Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the financial intermediary for the sale of Fund shares and/or for related services to shareholders. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
